VA HIV Testing Day • June 27

Did You Know?

• VA recommends that all adults get tested for HIV as part of their routine medical care.

• VA HIV testing for patients is voluntary and confidential.

• An HIV test is the only way to be certain about your status.

Which of these people should get an HIV test?

All of them.

Getting tested is the only way to be certain about your HIV status.

Get Checked Say yes to the test
